15 years of European Romania: Romania, road towards maturity

At the age of 15, life begins to open up new possibilities for shaping your adult life.There are several paths in front of you, and you're starting to realise that you need to start thinking seriously about your future. This moment has come for Romania as well, which has the extraordinary chance to be part of the European team for 15 years, a team united by the values of democracy, fundamental rights, and the rule of law.

Our journey was not easy and we were not always good students: deviations from European values and principles made it difficult for us to develop. Europuls has been supporting Romania throughout its European journey. For more than 10 years, we have brought the European agenda to Romania through the largest European affairs forum ever held in our country.

In 2022, the Eurosfat Forum celebrates 10 years of existence, therefore, on this occasion, we want to make an analysis of Romania's progress in the EU. What qualifications will we offer for Romania's political maturity? How do we manage the green transition? How does it adapt to the digital transformation? Can Romania be the leader and keeper of security in the region? Can we absorb more European funds? How does the implementation of RRP look like after 6 months? How do we take care of our mental health after the pandemic? Have we been involved enough in the Conference on the Future of Europe? Why don't we have more women in politics? Why don't we fully embrace the principles of the rule of law? At #EUROSFAT2022 we will have the chance to see how Romania is approaching the maturity exam, which is facing now, and we will give the final grade.

2022 TOPICS

Future of Europe

RRP Monitoring

Energy

Future of Work

Sustainability

Mobility

Youth participation

Civil Society

Rule of Law & Justice

Healthcare

Digital Transformation

Security & International Relations
